COMPANY: Polyrec is an Algerian company. Derived from an industrial group active in plastic industry as well as other domains as construction materials, cosmetics and chemicals since 1974.

WASTE ORIGINS: Our R-PET is collected directly from three specific plastic waste generator: HORECA (Hotels, Restaurants, Café), Malls & groceries, and large residential districts. Thus, in 10 main cities in Algeria through a national waste sorting WIN/WIN partnership program which involve the participation of citizens, small business actors and big bottle drink companies.

COLLECT PROCESS: Waste sorting post consumption.
